

EasyPathHints Extension

DSS

1. Easy Path Hints for Magento 2 Extension Overview

Magento 2 Easy Template Path Hints extension is used to turn on the template path hints for both frontend & backend on the fly just by using query strings.

2. How Does Easy Path Hints for Magento 2 Extension Work?

Please go to Stores => Configuration => DSS COMMERCE => Easy Template Path Hints.

2.1 General

General Settings

Enabled [store view] No

Access Code [store view] guy

Not Empty Access Code: /?tp=1&code=[access-code]
Empty Access Code: /?tp=1
Note that this works both for frontend and admin pages.

Save in Cookie [store view] No

If enabled, it will turn on the template path hints until you delete the cookie.
To Enable Cookie: /?tp=1&code=[access-code]&cookie=1
To Clear cookies: /?tp=1&code=[access-code]&cookie=0 OR clear browser cookies
(Especially useful for debugging post form pages, transactional email templates etc.)

- In **Enabled**, choose Yes to enable the extension or No to disable it.
- In **Access Code**, type any code or text to access the Path Hints.
- You can easily turn on the template path hints for frontend just by appending query string: `?tp=1&code=[access-code]`.
- This feature gives you the power to turn on/off the template path hints on the fly without going back and forth with System > Developer Settings.
- Similar to the frontend, You can easily turn on the template path hints for backend just by appending query string: `?tp=1&code=[access-code]`.
- If the you doesn't type **Access Code**, your query string must be `?tp=1` otherwise you doesn't access the path hints.

2.2 Saving settings in Cookie

- You can save the settings in a cookie so that you don't have to append query string again and again in order to turn on the template path hints.
- This feature is really helpful while debugging form post pages, transactional email templates, etc.
- And the query string for cookie will be: `?tp=1&code=[access-code]&cookie=1`.
- For clear the cookie query string will be: `?tp=1&code=[access-code]&cookie=0`.
